# Datalyzer International

At Datalyzer International, we are committed to helping our customers achieve manufacturing excellence through continuous improvement. What sets us apart is our integrated approach to quality management. We offer a unique solution that combines FMEA, MSA, SPC and APQP into one streamlined system, providing you with a holistic view of your operations and enabling you to make data-driven decisions that will drive success.

Partner with us and take the first step towards achieving excellence in manufacturing. Datalyzer has offices in USA, Netherlands, Portugal, India and Malaysia.

## Datalyzer Malaysia

Datalyzer is already more than 30 years active in semiconductor industry in Eastern Asia and especially Malaysia and Singapore. In 2020 we started our own office in Penang Malaysia to provide better support to customers in the semiconductor industry.

Datalyzer Netherlands is also already many years active with suppliers in the Netherlands.

More and more suppliers are looking at expanding in South East Asia and Datalyzer is supporting these companies with quality tools with local support in Asia.

## About HRD Corp and its Connection to DataLyzer Malaysia

Human Resource Development (HRD) Corporation is an agency appointed by Ministry of Human Resource Malaysia in which if a Malaysian based organization that is governed in the list under the PSMB Act 2001 Order 2021 with minimum 10 Malaysian employees are compulsory to be registered as HRD Corp employer. As employer in HRD, it is compulsory for these companies to pay 1% of total employees salary in their company as monthly levy to HRD Corp Malaysia. However, the companies can claim back 96% of the levy fund by looking for certified training providers for their company with any training topics they like for their employees. DataLyzer Malaysia is proud to inform that we are HRD Corp certified training provider and this is how Malaysian based clients can utilize their funds for the training(s).
